General Instructions

Who Must Use Form 165

File Arizona Form 165 for every domestic partnership including syndicates, groups, pools, joint ventures, and every foreign partnership (syndicate, pool, etc.) doing business in Arizona.

Entity Classification Under the Federal "Check-the-Box Rules"

The federal tax classification of an entity under the federal "check-the-box rules" determines the entity's classification for Arizona tax purposes. Refer to Arizona Partnership Tax Ruling PTR 97-1 for further information. An entity that is disregarded as an entity separate from its owner is included in the tax return of its owner.

Limited Liability Companies

Under the provisions of the Arizona Limited Liability Company Act, a limited liability company is classified as a partnership, or as a corporation, or is disregarded as an entity as determined under the Internal Revenue Code as defined in ARS § 43-105. A single member limited liability company that is disregarded as an entity is treated as a branch or division of the owner. A limited liability company classified as a partnership for federal tax purposes must file Arizona Form 165. A limited liability company classified as a corporation for federal tax purposes must file Arizona Form 120. A limited liability company classified as a corporation for federal tax purposes that makes a valid federal election to be taxed as an S corporation must file Arizona Form 120S. A single member limited liability company that is disregarded as an entity for federal tax purposes is included in the Arizona return of its owner.

Refer to Arizona Partnership Tax Ruling PTR 97-2 for further information.

Taxable Year Covered by Return

The partnership must have the same taxable year for Arizona purposes as it has for federal purposes. Indicate the period covered by the taxable year and whether the taxable year is a calendar year or a fiscal year.

Filing Original Returns

Returns are due by the 15th day of the fourth month following the close of the taxable year (April 15, in the case of a calendar year return). If the partnership has a valid federal or Arizona extension, file the return by the extended due date. Attach a copy of the completed federal Form 1065 and supporting schedules to the Arizona return. File the return with the Arizona Department of Revenue, PO Box 29079, Phoenix AZ 85038-9079.

The department normally determines the timeliness of a return by the postmark or other official mark of the U.S. Postal Service stamped on the envelope in which the return is mailed. Refer to Arizona General Tax Ruling GTR 93-1 for further information.

Extension of Time to File a Return

The partnership can apply for an Arizona extension by filing a completed Arizona Form 120EXT by the original due date of the return. The partnership can substitute a valid federal extension for an Arizona extension. Attach a copy of the federal or Arizona extension to the front of the Arizona partnership return. Composite return filers must use Arizona Form 204 to file for an extension.

NOTE: *A partnership that uses a full six-month extension of time to file Arizona Form 165 may force the partners into noncompliance. Arizona law provides that six months is the maximum extension of time to file that the department may grant the partners to file their returns.*

Filing Amended Returns

File amended returns within four years of the filing of the original return. Attach a statement to the amended return that explains why the partnership amended its Arizona return. If the partnership amended its federal return, attach a copy of the amended federal return with applicable schedules to the amended Arizona return.

NOTE: *File amended returns for prior taxable years on the Arizona Forms 165 for those taxable years. Use the 1998 Form 165 to amend only the 1998 taxable year.*

Who Must Sign the Return

One of the partners must sign the return. If receivers, trustees in bankruptcy, or assignees are in control of the property or business of the organization, such receivers,

trustees, or assignees must sign the return.

When someone other than a member or employee of the partnership prepares the return, that person must also sign the return.

Records

The partnership should maintain books and records substantiating information reported on the return and keep these documents for inspection. Arizona General Tax Ruling GTR 96-1 discusses the general requirements for the maintenance and retention of books, records and other sources of information received, created, maintained or generated through various computer, electronic and imaging processes and systems. Refer to this tax ruling for further information.

Rounding Dollar Amounts

Taxpayers must round amounts to the nearest whole dollar. If 50 cents or more, round up to the next dollar. If less than 50 cents, round down.

Penalties

A partnership information return that is incomplete or filed after its due date (including extensions) is subject to a \$500 penalty.

IRC § 7519 - Required Payments

The Department of Revenue will not require partnerships to make required payments. The department will not allow the affected taxpayers to deduct the federal required payments on their Arizona tax returns as an ordinary and necessary business expense or otherwise.

Line-by-Line Instructions

Type or print the required information in the name, address, and information boxes on the top of page 1. Indicate the period covered by the taxable year on page 1 of the return and whether the taxable year is a calendar year or a fiscal year. Indicate whether this return is an original or an amended return.

Enter the partnership's federal employer identification number, which is the taxpayer identification number (TIN). Enter the Arizona withholding tax number and Arizona transaction privilege tax number for the partnership.

All returns, statements, and other documents filed with the department require a taxpayer identification number (TIN). The TIN for a corporation, S corporation, or a partnership is the taxpayer's federal employer identification number. The TIN for an individual is the taxpayer's social security number or an IRS individual taxpayer identification number. Taxpayers that fail to include their TIN may be subject to a penalty. Paid tax return preparers must include their TIN

where requested. The TIN for a paid tax return preparer is either the individual's social security number or the federal employer identification number of the business. Paid tax return preparers that fail to include their TIN may be subject to a penalty.

**Schedule C - Apportionment Formula
(For Use by Multistate Partnerships With One or More Nonresident Partners)**

The provisions of ARS §§ 43-1131 through 43-1150 govern the apportionment of income. A partnership that engages in activities both within and without Arizona apportions its business income. The basis of the apportionment is property, payroll, and sales in Arizona as compared with everywhere. "Everywhere" means the property, payroll, and sales factors related to the whole unitary business.

When the partnership uses the apportionment method, complete Schedule C.

ARS § 43-1148 provides administrative relief if the allocation and apportionment provisions do not fairly represent the extent of the taxpayer's business activity in Arizona. The taxpayer may petition for, or the department may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

- Separate accounting.

- The exclusion of any one or more of the factors.
- The inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state.
- The employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

This section permits a departure from the allocation and apportionment provisions only in limited and specific cases. ARS § 43-1148 may be invoked only in specific cases where unusual fact situations produce incongruous results under the apportionment and allocation provisions.

Taxpayers seeking relief should submit a letter to the Corporate Income Tax Audit Section 60 days prior to the filing of the return setting forth the relief that is requested and the justification for the relief.

The department normally makes such determinations only upon audit of the taxpayer. Such a detailed examination of the specific facts and circumstances reveals whether such unusual fact situations and incongruous results exist.

NOTE: ARS § 43-1139 (*Allocation of business income*) provides that the apportionment ratio is a fraction. The numerator of the fraction is the property factor plus the payroll factor plus two times the sales factor. The denominator of the fraction is four.

Line C1 - Property Factor

The value of tangible personal property and real property owned by the partnership is its original cost. The partnership normally determines the average value of its owned property by averaging the values at the beginning and ending of the tax period.

The value of tangible personal property and real property rented by the partnership is eight times its net annual rental rate. The net annual rental rate is the annual rental rate paid by the partnership for the rented property less the aggregate annual subrental rates paid by subtenants of the partnership. The partnership automatically achieves averaging for rented property by the method of determining the net annual rental rate of such property.

Report real property situated in and tangible personal property permanently located in Arizona as property within Arizona, if connected with the business activity. Allocate the value of mobile property to Arizona on the basis of the total time the property was within Arizona.

Line C2 - Payroll Factor

Report salaries, wages, or other compensation of officers, employees, etc., as within Arizona if performance of the services occurs here. This rule applies regardless of where payment is made or control exercised. This rule also applies

regardless of whether the performance of the services is partly or wholly in connection with the apportionable business carried on outside the state or in interstate or foreign commerce. Allocate the compensation of officers and employees who perform services partly within and partly without Arizona to this state when:

- The services performed outside of Arizona are incidental to the employee's service within Arizona; or
- The employee's base of operation is in Arizona; or
- The employee has no base of operation in any state, but the direction or control of the employee is from Arizona; or
- The employee has no base of operation in any state, and there is no direction or control from a state in which the employee performs some part of his services, but the employee's residence is in Arizona.

Line C3 - Sales Factor

The term "sales" includes all gross receipts from transactions and activities in the course of the regular trade or business that produce income.

Determine sales within Arizona on a destination sales basis.

NOTE: Multiply the amount entered on line C3(d), column (a), of the Schedule C (the total Arizona sales) by 2 (double weighted sales factor) on line C3(e), column (a). Enter the amount on line C3(f), column (a). Do not double the amount entered on line C3(f), column (b), of the Schedule C (the everywhere sales of the taxpayer).

EXAMPLE: The partnership has total Arizona sales of \$100,000 and total everywhere sales of \$1,000,000. On line C3(f), column (a), enter \$200,000 of Arizona sales. On line C3(f), column (b), enter \$1,000,000 of everywhere sales for the partnership.

The sales factor ratio on line C3(f), column (c), may, in certain circumstances, exceed 100 percent. However, since the total ratio (line C4) is divided by four, the average ratio (line C5) will not exceed 100 percent.

Line C5 - Average Ratio

Divide the total ratio, line C4, column (c), by four. Enter the average ratio here and on Arizona Form 165 Schedule K-1(NR), column 2. Express the ratio as a decimal carried out to six places.

NOTE: Do not exclude a factor from the total ratio if the numerator of a factor is zero and the denominator of a factor is greater than zero. However, the taxpayer must exclude a factor if both the numerator and the denominator of a factor are zero. If the property or payroll factor is excluded, determine the average ratio (line C5, column (c)) by dividing the total ratio by three. If the sales factor is

excluded, determine the average ratio by dividing the total ratio by two.

Schedule K-1 - Arizona Partner's Share of Income Adjustments

Complete three copies of Arizona Form 165 Schedule K-1 for each partner. File one copy of each partner's Schedule K-1 with the partnership's Form 165. Provide all partners with a copy of their Schedule K-1. Retain a copy for the partnership's records.

Schedule K-1(NR) - Nonresident Partner's Share of Income

Complete three copies of Arizona Form 165 Schedule K-1(NR) for partners who are not Arizona residents. File one copy of each partner's Schedule K-1(NR) with the partnership's Arizona Form 165. Provide all partners with a copy of their Schedule K-1(NR). Retain a copy for the partnership's records.

Schedule K-1(NR) - Instructions for the Partnership

Use this schedule for all corporate partners, nonresident individual partners, and nonresident fiduciary partners.

Any partnership that has income from business activity that is taxable both within and without Arizona must allocate and apportion its net income. The partnership must allocate and apportion its net income according to the Uniform Division of Income for Tax Purposes Act (UDITPA), ARS §§ 43-1131 through 43-1150. A partnership that has income from business activity taxable in more than one state is a "multistate partnership." A partnership that has income from business activity taxable entirely within Arizona is a "wholly Arizona partnership."

Column 1 - Distributive Share Amount

Wholly Arizona partnerships - In column 1, enter the distributive share amount for each line item from the federal Form 1065, Schedule K-1. On line 15, enter the adjustment from federal to Arizona basis (from Form 165, page 1, line 6) multiplied by the partner's percentage of gain or loss.

NOTE: *For corporate partners, complete only line 15 of the schedule.*

Multistate partnerships - Apportion all business income of a multistate partnership by the use of the apportionment formula. Nonbusiness income of a multistate partnership is nonapportionable and specifically allocable to a particular state.

"Business income" means income arising from transactions and activity in the regular course of the taxpayer's trade or business. Business income also includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute

integral parts of the taxpayer's regular trade or business operations. (ARS § 43-1131) "Nonbusiness income" means all income other than business income. (ARS § 43-1131)

In column 1, enter the partner's distributive share of the multistate partnership's income (or loss) that is subject to apportionment. The multistate partnership must compute the partner's distributive share of the partnership's income that is subject to apportionment. Make this computation by subtracting the partner's distributive share of the multistate partnership's nonbusiness income from the partner's total distributive share amount of the partnership's income. To compute the amount of such income that is subject to apportionment, the multistate partnership must attach a schedule that details (for each line item):

- The partner's distributive share amount from the federal Form 1065, Schedule K-1, or from the adjustment from federal to Arizona basis (Form 165, page 1, line 6).
- The partner's distributive share amount of the partnership's nonapportionable or allocable income.
- The partner's distributive share of the partnership's income that is subject to apportionment. Refer to ARS §§ 43-1134 through 43-1138 for the methods of allocating certain types of nonbusiness income.

NOTE: *For corporate partners, apply this computation only for the amount to be entered on line 15. Do not complete any other lines on the schedule for a corporate partner.*

Column 2 - Arizona Apportionment Ratio

Wholly Arizona partnerships - Enter 100 percent.

Multistate partnerships - Enter the average ratio amount from Arizona Form 165, Schedule C, line C5, column (c). (See Schedule C instructions).

Column 3 - Arizona Source Income

Wholly Arizona partnerships - Multiply column 1 by column 2 and enter the result in column 3.

Multistate partnerships - Attach a schedule that details (for each line item) the following computation:

1. The partner's distributive share of the partnership's income subject to apportionment multiplied by the average ratio in column 2.
2. The partner's distributive share of the partnership's income (or loss) which is specifically allocable to Arizona.
3. The total of the amounts computed in steps 1 and 2 that is to be entered in column 3.

NOTE: *ARS §§ 43-1134 through 43-1138 specify the methods for allocating certain types of income to Arizona. Do not include the amount of any nonbusiness income which*

is allocable to another state in the total to be entered in column 3.

All partnerships - Column 3 is the partner's Arizona source income from the partnership. Partners should refer to the Schedule K-1 instructions for information on completing their Arizona returns.

Information on the Filing of Composite Returns on Arizona Form 140NR

Arizona law requires an individual resident or nonresident to file his or her own income tax return. The Arizona Department of Revenue will accept a composite return on Arizona Form 140NR for qualifying nonresident individual partners of a partnership. *However, a composite return cannot be filed with fewer than ten participating members.* Refer to Arizona Individual Income Tax Ruling ITR 97-1 for information regarding the requirements for filing a composite return on Arizona Form 140NR.
